

## Automatic Ring Bending Machine for SWG IR and OR

Code:KXT E2000D-2

### Description

Bending Ring width:6mm--60mm, ring size:200-3000mm; PLC perimeter control, automatic cutting.

### Automatic Ring Bending Machine for SWG IR and OR

Product number:KXT E2000D-2

Devlon is a special material which contains fluorine. It has better properties of creep resistance and anti corrosive than pure ptfе material. It is widely used in valve industry.

Item no.:KXT E2000D-2

STYLE	KXT E2000D-2	KXT E1000D-2
Bending Ring thickness	2mm, 3mm, 4mm	2mm, 3mm, 4mm
Bending Ring width	6mm--60mm	6mm--20mm
Maximum ring OD	3000mm	1000mm
Minimum ring ID	200mm	120mm
Total power	6kw	6kw
Servo motor power	3kw	3kw
Main motor power	2.2kw	2.2kw
Power supply voltage	380V/220V, 3phases, for option	380V/220V, 3phases, for option
linear speed	0-200mm/s	0-200mm/s
PLC	xinjie	xinjie
Production rate	5s/pc for ASME8"150LB	2.5s/pc for ASME8"150LB
Machine measurement	1500*1300*1580mm	1480*1300*1600mm
Machine net weight	800kg	750kg
